## GAME DESCRIPTION

Coin Depot is a single player coin drop game with a bonus feature. The play field is a pegged board, which alters the direction of the falling coin from left to right and right to left. Once the coin exits the pegged area the coin falls into one of seven (7) columns located at the bottom of the play field for a point value. The object of the game is for the player to drop the coin in the selected slots which award the player point values. The bonus award increases as coins are played and is awarded when a player successfully drops one coin into each of the five (5) center chutes, lighting the word BONUS and awarding the tickets displayed in the center of the play field.

## CONDITIONS

- 2.) Payout must occur immediately in the form of tokens or tickets.
- 3.) Game shall be clean and free of debris.
- 4.) Game shall be installed and maintained according to manufacturer specifications.

The Commission reserves the right to suspend, revoke or modify this certification upon notice to the manufacturer and/or applicant.
